78A, Periya Kothuba Pallivasal North West
Street, Melapalayam, Tirunelveli, 627705,
Tirunelveli, India

I'm a passionate Frontend Developer with two years of experience. I've worked extensively with JavaScript to create dynamic and interactive web pages, including charts, tables, live dashboards, and graphs. I'm looking for exciting opportunities to collaborate and build innovative projects together.

PROFESSIONAL EXPERIENCE

Internship

National Informatics Centre (NIC)

01/2021 - 03/2021

Tirunelveli

District Collectorate

Achievements/Tasks

- As an app developer, I created the successful "Nellai Loans" app using Flutter, showcasing my cross-platform development skills. This project highlights my ability to deliver impactful digital solutions with modern frameworks.

Work Experience

Bevywise Networks

06/2022 - Present

Tirunelveli

Achievements/Tasks

- Developed and implemented a responsive design for a website/application, resulting in improved user experience and increased traffic/engagement.
- Involved in development of User Interface using HTML5, CSS3, JavaScript, AJAX, & JSON.
- Developed standard and ad hoc reports in graph format as required.
- Collaborated with product team members to implement new feature developments.
- Resolved issues raised in QA environment and assisted the reporting team on their requirements.

PERSONAL SKILLS

React JS

HTML5

CSS3

Bootstrap CSS

Javascript

jQuery

GIT

LINUX

PROJECTS

MES (Manufacturing Execution System)

- As a front-end developer, I am working on an MES project in Industry 4.0, focusing on automation and production machine control. I create interactive reports, graphs, live dashboards, and tables using AJAX, API, and JSON for data handling. IoT devices connected via MQTT Router feed data into Elastic Search. This role lets me deliver dynamic visualizations for real-time manufacturing processes.

EMS (Energy Monitoring System)

- On the EMS (Energy Monitoring System) project, I optimized energy usage and designed user-friendly screens for interactive features. I simplified IoT setup, reducing configuration time and allowing clients to focus on application development, which improved efficiency and cut energy costs.

ACHIEVEMENTS

Worked in four-level environment of development, QA, staging, and production.

Successfully integrated a third-party API or library into a project, improving functionality and saving time on development.

Utilized charting libraries such as Chart.js, Plotly.js, or Highcharts to create dynamic and interactive charts with features such as zooming, panning, and tooltip display.
